

DID HE FALL OR WAS HE PUSHED VERSION TWO 25.04.2009

The following reply was received from Mrs Lucy Youles head of Legal services in respect of an FOI request made by me as to the cost of Mr Kerr's redundancy package.

I will quote the reply verbatim. “ You have requested information relating to to The Chief Executive's departure. I can confirm the Council holds no information about his redundancy. I am not aware a redundancy has taken place. I appreciate your request could relate to the Chief Executive's departure from the Council in any event and I propose I propose to deal with your request on that basis. “

The reason for this request was because the Controlling Conservative group have clamped a veil of secrecy on how they are wasting our money, even worse they have persuaded all the Councillors of different groupings to back them What sort of pressure did they use I wonder?

If the ruling Conservative group think Councillor Neal's leadership will cause problems at the next election this brave band of democrats will dump her. After all, look at what they did to Maggie and she gave them four election victory's in a row and won the Falklands war. The best that Councillor Neal can show is victory over Mr Kerr, it's hardly in the same class.

I will conclude by quoting Milton Freidman a well known American economist” If you think the Government or Local Council can spend your money better than you can you have rocks in your head”.
